

Nanny Match

For Working Parents

We help parents return to work with confidence.

Find the flexibility and freedom to work

We fill the time that traditional childcare can't so parents can remain in the workforce.

We support:

- Gradual transitions for new mums returning to work
- Parents who need to fill childcare gaps of 1–4 days
- Parents who need more than their allocated kinder days
- Parents who need after school care from 3pm

We value quality and reliability

Parents can return to work with peace of mind knowing we've personally met and carefully vetted each nanny for experience, reliability and cultural fit.

We look for:

- People who are over the age of 25
- Permanent residents and Australian Citizens
- Tertiary educated carers and teachers
- Experience working with children and families
- People who have that spark, communicate effectively and smile throughout their day
